

LEARN ABOUT THE
PROJECT:

icarus

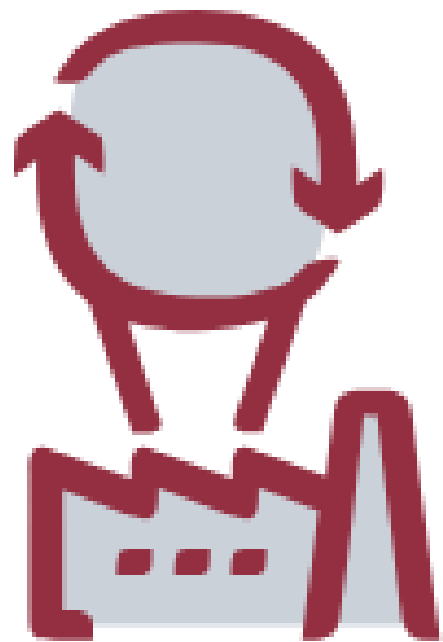

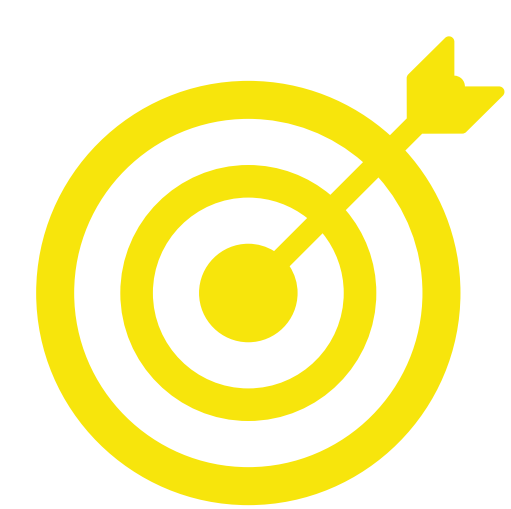

PNO GROUP

Title of the project:

“Increasing Circularity in
Process Industries by
Upcycling Secondary
Resources”

icarus

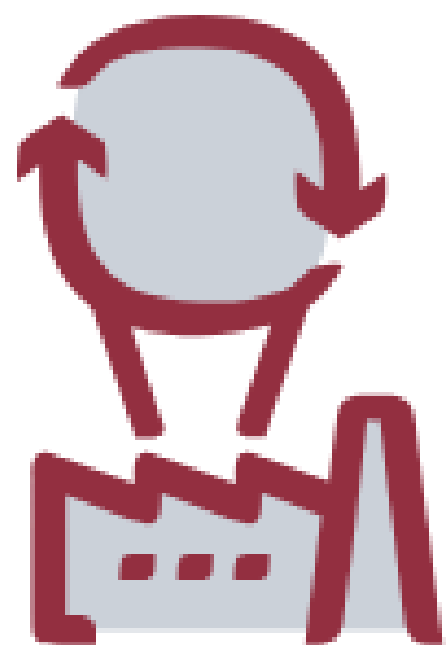

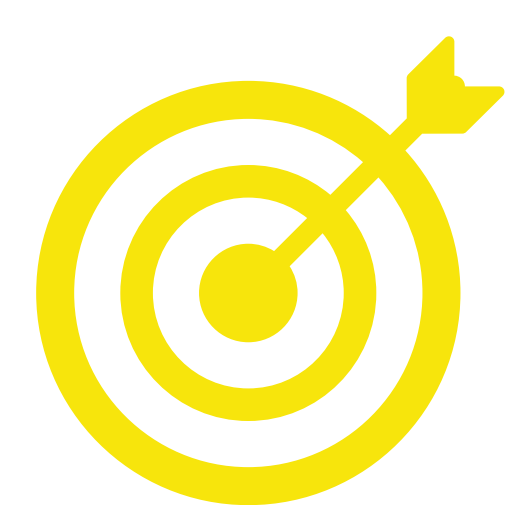

PNO GROUP

Objective:

- ✓ ICARUS aims to provide technological support to energy-intensive and construction industries for the transition to more sustainable and digital processes in a business model for successful market implementation.

icarus

PNO GROUP

Expected Main Results:

✓ **ICARUS** will upcycle waste material resources of most selected process industries to achieve circular and sustainable process industries overcoming their final application in construction sector.

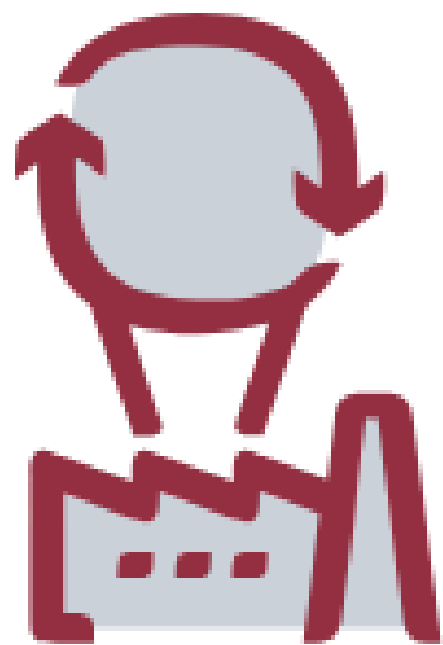

✓ This project will accelerate the uptake of the process industry through co-creation and co-design approaches, contributing to the development of education and skills activities and outcomes in this area while fostering connections across the entire value chain, including industrial players, recyclers, public authorities, and standardisation actors.

PNO GROUP

ICARUS has received funding from the European Union's Horizon Europe Research and Innovation Program under Grant Agreement N° **101138646** ➔
