

PNO GROUP

Title of the project:

“Sustainable nanoPaRticles
Enabled antiMicrobial
surfaceE coatings” ➔

PNO GROUP

Objective:

- ✓ SUPREME aims at developing an innovative **antimicrobial nanocoatings platform** with end-users, demonstrating high effectiveness against pathogens, strong durability and adhesion, robust safety through a Safe-by-Design approach, and the feasibility for sustainable large-scale production.

PNO GROUP

Expected Main Results:

SUPREME will improve public health and sustainability by developing innovative **antimicrobial nanocoatings**, boosting EU industrial leadership, fostering SME growth, and promoting circular economy practices across key value chains.

PNO GROUP

SUPREME has received funding from the European Union's Horizon 2020 Research and Innovation Program under Grant Agreement N° **101058422** ➔

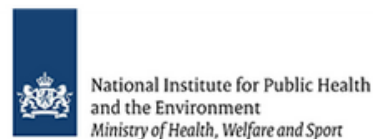

PNO GROUP

Duration of the project:

- ✓ Start date: 2023-01-01
- ✓ End date: 2026-12-31
- ✓ Duration: 48 months

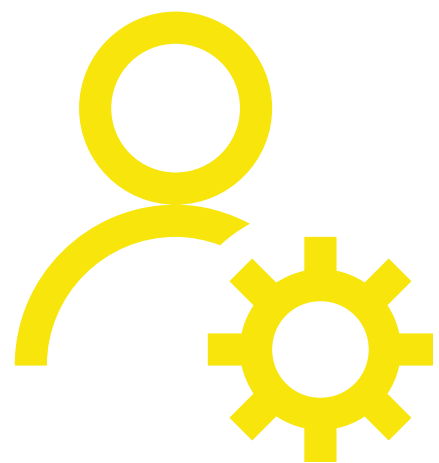

Coordinated by
KU LEUVEN

19 partners
8 countries
